

Welcome to new Nordic research and successful models of integration through non-formal adult education

The non-formal adult education in the Nordic countries invites to a one-day program May 4th, during the NCAEL- 7th Nordic Conference on Adult Education and Learning 3-5 May 2017 in Jönköping. The program is aimed at those who work with newly arrived immigrants and non-formal adult education and want to participate in efforts to formulate successful models for establishment on the labour market and in society at large.

At the end of the day, we hope to have a summary of what characterizes successful models for inclusion on the labour market and in society.

One-day program Thursday May 4th 2017
